

Global Surgical Equipment Market Size and Key Trends in Terms of Volume and Value -2023

Date : May 22, 2018

Bharat Book Bureau Provides the Trending Market Research Report on Global Surgical Equipment Market Analysis (2017-2023) under Life Sciences category.

Bharat Book Bureau Provides the Trending Market Research Report on Global Surgical Equipment Market Analysis (2017-2023) under Life Sciences category. The report provides information on industry overview, market size, latest developments, industry trends, Key players, USA presence, and their future prospects.

The Global [Surgical Equipment Market](#) size is expected to reach \$17.5 billion by 2023, rising at a market growth of 7.9% CAGR during the forecast period.

Surgical equipment are medical devices which are used in cutting, coagulating, desiccating, and fulgurating the body tissues in a surgical procedure. The introduction of electrosurgical instruments has contributed to the growth of surgical instruments market, which would drive the market during the forecast period. Additionally, growing trend for minimally invasive surgeries such as electrosurgery adds the market growth.

Growing cases of road accidents would be a major factor influencing the market growth. According to Association for Safe International Road Travel, nearly 2.35 million people are injured every year due to road accidents. Wound injury management is also commonly conducted with surgical sutures in cases of accidents. Thus, the demand for surgical equipment is expected to grow during the forecast period.
