

## Canada Web Hosting Provider Layeronline Offers Unlimited SSD Cloud Web Hosting

**Date :** Feb 19, 2016

Layeronline has introduced unlimited SSD website hosting with unlimited space and unlimited bandwidth for a business to get a high performance website at an affordable cost.

Ontario, Canada; 19, February 2016: Layeronline brings high performance hosting services with unlimited SSD space, unlimited bandwidth, unlimited database, unlimited domains and other robust features. The new [web hosting](#) plan is aimed at providing enhanced capabilities for a business to host and run their websites and applications with great performance.

For any business today, the round-the-clock availability of their website is the need of the hour. Any downtime would mean that visitors will shift to the competitor's website. This is the reason why a business needs to focus on the hosting services that have been designed to ensure all-time availability and an easy accessibility of their websites. With their new hosting services, Layeronline endeavors to meet all hosting related needs of a business in a more professional and dedicated manner.

According to the spokesperson of the company, their Super Hosting Plan is available at an affordable cost and includes features like free cPanel for managing websites in a convenient manner. One can get unlimited emails and up to 20 free domain extensions with the hosting. More importantly, they are offering a 30-day money back guarantee and a customer can have 30 days to evaluate the outstanding features of their hosting services.

At Layeronline, each [website hosting](#) plan comes with a 24/7 support and daily backups. The free SSD RAID Storage helps overcome any redundancy and keeps the data accessible for the visitors. They provide a protected hosting environment with spam protection and malware protection and makes sure the client data remains safe and secure.

Moreover, Layeronline provides free website templates for a customer to quickly build a website with unique and personalized designs. They also allow a free website migration and claim to maintain a 99.9% uptime. Customers can choose from Windows and Linux hosting and can also go for WordPress Hosting, Drupal hosting, Joomla hosting and Magento hosting. At the same time, the hosting provider has Unlimited SSD Cloud Web Hosting plan that is highly affordable as well as a robust hosting service. One can learn about the different hosting plans and their features on the website link <http://www.layeronline.com/client/cart.php?gid=1>.
