

## Electronic Shutter Technology Market Trends and Global Foresight to 2022

**Date :** Jun 1, 2017

Global Electronic Shutter Technology Market Information, by Technology, by Application (Government, Automotive, Surveillance) - Forecast 2022

^ ^ ^ ^ ^ The major growth driver of Electronic Shutter Technology Market includes growing market of smartphones and tablets, growing demand for high resolution in digital cameras and growing usage of image sensors in biometric systems among others. However, presence of competent technology and technical limitation are some of the major factors which are hindering the growth of Electronic Shutter Technology Market.

### Key Players

Sony Corporation (Japan), Himax Imaging Inc. (Taiwan), Galaxy Core Inc. (China), SK Hynix Inc. (South Korea), Omni Vision Technologies Inc. (U.S.), Samsung Semiconductor, Inc. (U.S.), Toshiba corporation (Japan), Canon Inc. (Japan), Panasonic Corporation (Japan) Apple (U.S.) among others.

### Objective of Electronic Shutter Technology Market Study:

- To provide detailed analysis of the market structure along with forecast for the next 10 years of the various segments and sub-segments of the Global Electronic Shutter Technology market.
- To provide insights about factors affecting the market growth.
- To analyze the Electronic Global Shutter Technology Market based on various factors- price analysis, supply chain analysis, porters five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW).
- To provide country level analysis of the market with respect to the current market size and future prospective.
- To provide country level analysis of the market for segment by technology, by application and sub-segments.
- To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global

Electronic Shutter Technology market.

#### Segments

Global Electronic Shutter Technology Market can be segmented as follows:

Segmentation by Technology: CMOS sensors, and CCD sensors among others.

Segmentation by Application: Consumer electronics, broadcast, automotive, retail, government, and surveillance among others.

#### Industry News:

- Himax Imaging Inc. has announced in January, 2016 about its new development "always on" image sensors. These sensors have various computer vision capabilities such as feature extraction, sensing, gesture recognition and object tracking among others.

- Panasonic Corporation has done an announcement in February, 2016 about its new CMOS sensors with a global shutter which provides dynamic range and efficient light sensitivity.

The report for Electronic Shutter Technology Market of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.

#### About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.
